

Week 3: R Markdown Presentation & Plotly

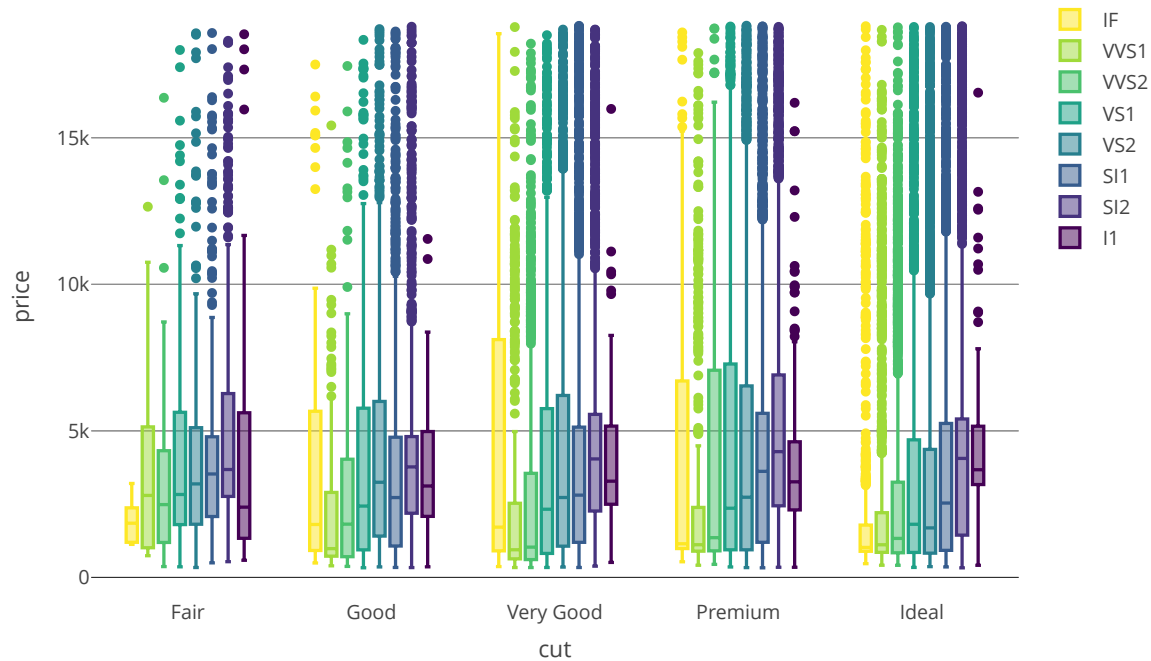

Ingrid Tobar

7/9/2019

Instructions

- Create a web page presentation using R Markdown that features a plot created with Plotly.
- Host the webpage on either GitHub Pages, RPubS, or NeoCities.
- The webpage must contain the date when it was created and a plot created with Plotly.
- The next slide shows a **Grouped Box Plot** of the diamond dataset, showing price (y axis) vs clarity (x axis), grouped by cut (Fair, Good, Very Good, Premium, Ideal)

Grouped Box Plot
